Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Saturday 24 Apr 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cooler than Friday, but dry with bright or sunny spells.

Today:
Dry throughout, with large amounts of high cloud initially but still some bright spells, then later sunny spells developing. Feeling noticeably cooler everywhere compared to Friday, with the highest temperatures inland in the west. Maximum temperature 10 deg C (50 deg F).

Tonight:
Mainly clear skies, although some patchy cloud may develop, most likely along the coast and over high ground. Becoming chilly, with a slight frost for prone rural locations. Minimum temperature -2 deg C (28 deg F).

Sunday:
Chilly but largely sunny start, then becoming cloudier for many areas. But still some sunny spells will occur. Highest temperatures in the west, feeling chilly along the coast. Maximum temperature 13 deg C (55 deg F).

Outlook for Monday to Wednesday:
Monday bright or sunny spells, then cloud and outbreaks of rain later. Tuesday showers or longer spells of rain. Wednesday some light showers, becoming dry with bright spells. Rather cool.
